

## **Sketchy summary of contents of the audio tapes by I.v. Ludwiger**

### **01/02 20910-9307\_A+B\_Berliner\_Vorträge\_1**

- Good overall overview of Heim's theory
  - 4-dimensional Minkowski space, theory of gravitation
  - Law of dimensions,  $R_6R_6$ , masses of the elementary particles
  - Cosmology
  - Quantum mechanics and control of life processes from  $R_{12}/G_{4R_{12}}$  /  $G_{4R_{12}}/G_4$

### **03 Dröscher\_Vortrag\_Innsbruck\_1992-10-25 + discussion\_Heim**

- Dröscher, very difficult to understand...

### **05 Heim\_1979-11-11\_Elementarteilchen\_Theorie**

- Redshift, anomalies
- Many background noise disturbances...

### **06 Heim\_1980-06-23**

- Tachyons, faster-than-light
- Redshift and gravitational boundary
- Interview and on-site inspection of a UFO sighting (27 min at the end)

### **07 Heim\_1981-05-25\_Zen+\_BR2-Interview\_1981-03-17**

- Conversation Heim – v. Ludwiger about Zen
- “One acts correctly automatically”
- Occasional inspirations reported by Heim: “it is not from me”

### **08 Heim\_Basler\_Psi\_Tage\_1983\_11\_04**

- Panel discussion on parapsychology, Heim gives the first contribution

### **09 Elementarteilchentheorie 1975\_07\_21**

- a) Internal dynamics of elementary particles
- b) Heim's UFO sighting + interview with an expert on spaceflight and UFOs

### **10 Heim Garmisch 1972 + interview Heisenberg**

- a) Transition criterion to syntrometry + metron + reality limits of the gravitational field / cosmology

- b) Causes of inertia, metroplex totalities, trans-coordinates and complexes of ideas, condenser quartet, postmortem existence, metroplex structures and politics (background noises)

### **11 Heim\_Gespräche\_1\_1979\_Homöopathie (Water!)\_Mass formula\_Uncertainty**

- Homeopathy
- Significance/relativization of GR (general relativity)
- Physical laws are only metaphors / articles of faith
- Gravitation, funding through MBB
- Internal dynamics of the elementary particles
- Principle of inertia
- Uncertainty relation “a very cheap/simple idea”

### **12 Welt der Weltbilder – Heim 07\_1993**

- (Lecture, R6–R12R\_6 – R\_{12}R6–R12, control from G4G\_4G4)

### **13 Weltbilder der Physik 07\_1993 – Dröscher**

### **14 Heim\_Gespräche\_4\_1983**

- Conversation about his book and ideology / worldview
- Statement by a theologian and significance for theology
- Mass formula is “a means to an end”
- Development aid
- Paranormal experiences in childhood (very personal):
  - Memories of previous lives
  - Dream of the “great master”: “This is the plan of the entire world”
  - Entity “Mashkohol”
  - Encounter with the phantom of an Egyptian princess in the corridor at age 5, then with her mummy at age 10 in the Pergamon Museum
- In that context: ancient knowledge of the Egyptians

### **15 Heim\_Gespräche\_5\_1974-07-01\_Ital + origin\_of\_religion**

Conversation with Gerda Ital:

- Satori
- 12:45 – joke about “blockhead → Federal Chancellor”

- Legal consequences of the physical finding of anchoring in matter: abortion, organ removal, death penalty
- Jesus Christ
- Origins of Egyptian mythology and words
- “Skirmishing” about ITK experiences (instrumental transcommunication) / anecdotes about personal messages from relatives of Burkhard and Gerda Heim

#### **16 Heim Gespräche 6 – 1981\_08\_09 Mass formula**

- Metron, elementary particles, cosmology, redshift, 3 spheres

#### **17 Heim Gespräche 7 – 1975\_11\_24\_HrSchneider\_UMMO**

#### **18 Heim Innsbruck 1982\_09\_17 Strivings and orientations**

- Religion, the background of being, postmortem states, pre-dating of stimuli
- b) Discussion with Prof. Karl Popper and about his teachings

#### **19 Heim\_Kosmologie\_1991\_11\_02\_MUFON-CES**

- Principles of quantum mechanics
- Their derivation from Heim field theory

#### **20 Heim\_Lebenslauf + Interview\_1981\_02\_23+24**

- Greek philosophy
- Nuclear physics
- Physical cause of inertia
- Providing meaning (sense-giving)

#### **21 Heim\_Mass formula\_1980\_11\_26**

- In the 2nd part, verbal description of the derivation of  $x^5x^5$  and polymetry in formulas (!)

#### **22 Heim\_Mass formula\_MBB\_1981\_08\_10**

- Sphärentrinität (three-sphere structure), partial structures, 4 polymetries, world selector equation (19), flux aggregates, shielding fields, calculations on sphere rotation at the blackboard

#### **23 – 25 Heim\_MBB\_Vortrag\_1 to 3\_1976\_11\_25**

- Presentation of Heim’s unified quantum field theory of matter and gravitation, approx. 2.5 hours
- Lecture 1 includes an introduction by Illobrand von Ludwiger

- In lecture 3 from minute 37 onward, discussion; Heim on the suggestion by Bölkow

### **26 Heim\_Metron dynamics\_1978\_07\_18**

- Tape voices, selectors and operators, metron theory and digital computers, world selector, structures as metric deformations, condensations of the metronic scale (like “contour lines”), parapsychology and Bender

### **27 Heim and Dröscher (discussion after lectures, 8 min)**

- Law of dimensions, hyperspace, difference calculus (hard to understand)

### **28 Heim\_MUFON lecture\_1981\_09\_05**

- Holistic approach of Heim theory, quantities and qualities, transcendence, biological evolution

### **29 Heim Parapsychology + radio broadcast**

- Telepathy, psychokinesis, clairvoyance

### **30 Heim Syntrometry**

- Introduction of the concepts I

### **31 Heim Syntrometry**

- Introduction of the concepts II

### **32 Heim Syntrometry (hard to understand)**

### **33 Heim Syntrometry Maximentelezentrik 1977**

- a) Conversation Heim – Zen master Gerda Ital – IvL
- b) Bundling of activity currents

### **34 Heim Syntrometry Maximentelezentrik 1978**

- a) Conversation Heim – IvL about Zen
- b) Interview with Heim (by Jürgen von Scheidt – night studio) about postmortem states

### **35 Heim Telekinesis Feb 1978**

- a) Water conglomerates, properties of elementary particles
- b) UFO sighting interview by IvL

### **36 Heim on religion 1987-5-23**

- a) Inertia explained, geometrization of time? Theory of evolution (Eigen), religions

- b) Mental calculation with tensors and matrices, interpretation of  $x^5 \times x^5$ , Sphärentrinität, interactions

### **37 Lecture Innsbruck 10\_1992 (???)**

- a) Dreams and déjà vu experiences of Heim, appearance of the princess of a Ramses
- b) Continuation, about pyramids

### **38 Lecture Innsbruck 1992 discussion (???)**

- a) On redshift (cosmology) – background noises
- b) Cause of inertia, on the cosmogony of matter (partly difficult to understand)

### **39 Heim lecture MUFON Oct 1986**

- Heim lecture
- Explanations of concepts in syntrometry

### **40 Heim lecture MUFON Oct 1986 mp3 – Geometry and structure**

- Heim on the approach of his comprehensive theory
- Explanations of concepts in syntrometry

### **41 Heim Time travel and Einstein 1974 (??)**

- On tape voices (paranormal phenomena), activity currents
- Interactions, world selector, manifestation of world structures

### **42 Broadcast with Heim and others, Klockmann Strohmeier Hitler speech**

- “Finone theory” by Mr. Xyy ´, theory of evolution and books by Manfred Eigen / Jacques Monod, Heim’s gravitation theory
- Another speaker’s lecture on the nature of the natural sciences

### **43 Lecture by Heim on his book “Postmortem States”, on freedom and social criticism**

### **44 a Heim discussion of formulas of Heim theory, internal structure of elementary particles and inertial mass, Prof. Eigen and biological evolution, baby crying in the background**

### **44 b Uplifting poetic quotations by a speaker (name and source unknown)**

### **45 Heim 1971-12-27 Northeim –**

- a) Experiments with tape voices, dynabaric and contrabaric effect, baryon resonances and decay processes

- b) Neutrinos and decay processes of mesons

**46 Dröscher interview 1993 – 7–10**

- Interview about the content of his new book Dröscher – Heim (volume 3)

**47 Heim lecture on the occasion of a congress (on parapsychology?)**
